wherever you are now.

LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

The New Microsoft Dynamics AX, formerly known as codename Rainier, and then simply AX7 after it's version number, is just around the corner. According to MSDynamicsWorld.com it is looking to be generally available as soon as March 2016, but what are we going to call it?? It is rumored that the new AX is just going to be called just that: "AX".
